Easy login
Simple design, visibly pleasing

Activity type unclear when manual input
Struggled for doing manuel edit
Courses overlap if time goes over other courses
autoload on selection by dropdown is easier to find professor
Manual input didn't work
am/pm (12 hour clock on windows was not intuitive) -> little struggle
Interface is a bit small
Error handling for time error data
Time not grabbed for manual input of course when changing (This becomes annoying when inputting multiple times)
Auto completion for teacher names and TA names (Currently it is very easy to enter malinformed data)
Mistook edit selection for manual entry
Activity type? Scroll down when input entered lower than screen (too many hours)
Mon 30 min times (Third:00 doesn't work?)
Not clean how to edit
Greyed out example values in form
Visible changes to course on gover (shows that it's clickable)
Validate form fields
Change form input "Types"

Have trouble selecting terms (confusing)
Start + end date, manually inputting can be confusing (format)
The course selected does not disappear despite the days have been changed (ex. Clicked monday, course loaded on monday, changed into tues/wed, course loaded on tues/wed but course on monday still remains

Submit to query gets rid of manual
Submit query wont load/work
Squares instead of circular
Instead of load example, push on top
Auto complete (no freeform)
Rename "Save DB"
Submit query

hours and days don't necessarily match the typical academic schedule
differentiate between Summer and Winter schedule.
there are 3 terms with the label 3 used to indicate a course that run through both term 1 and 2. (true for both Winter and Summer Session.)
selection is limited to one instructor and there doesn't seem to be an option to select particular courses
the import excel feature suggests that users could import a subject or multiple subjects at a time, but not sure how can they then select a group of courses or instructors to populate the map.
TA information isn't necessary
the manual entry forces to enter each time slot rather than being able to choose between the blocks (eg. MWF 9:30 am - 10:30 am). (tedious).
